

Berlin, 30.06.2014

REFERENCE LETTER

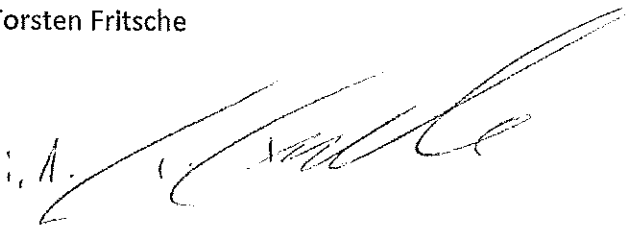

I would like to express our gratitude for Procesy Inwestycyjne and the Public Board for the Development of Low-emission Economy with whom GIZ cooperated in June 2014 by organizing a high-level energy event in Poland in respect of the Polish energy development and its perspective and role within the European Union. The German-Polish exchange of valuable information took place during The International Conference "New Energy User Friendly 2014".

I was impressed with the level of professionalism, efficiency and the high-level network provided by our Polish partner Procesy Inwestycyjne and its team, who enabled the mission of GIZ on behalf of the German Federal Ministry of Economic Affairs and Energy (BMWi) to give a thorough insight into German and European energy policy and gather a good understanding of the Polish energy status quo.

The Conference was very interesting and very beneficial for both, Polish participants and the German delegates from the BMWi, Fraunhofer ISI Institut, Energieforen Leipzig and GIZ.

I very much hope that our cooperation with Procesy Inwestycyjne will continue and look forward to future common projects in Poland and Germany, supporting Poland to achieve a sustainable energy development with economic, social and environmental benefits for Poland and the EU.

Torsten Fritsche

Senior Manager Energy
